FIFTY-SIXTH

COMMENCEMENT

THE STAR-SPANGLED BANNER

O! say, can you see by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming,
Whose broad stripes and bright stars through the perilous fight,
O'er the ramparts we watched, were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there;
O! say, does that Star-Spangled Banner yet wave,
O'er the land of the free, and the home of the brave?

HAIL TO OLD I.U.

Come and join in song together,
Shout with might and main;
Our beloved Alma Mater,
Sound her praise again.

Chorus

Gloriana, Frangipana,
E'er to her be true;
She's the pride of Indiana,
Hail to old I.U.!

—Joe T. Giles, Class of 1894

COMMENCEMENT TRADITIONS

Today we celebrate the fifty-sixth Commencement exercises of IU Indianapolis, representing the culmination and proud recognition of our graduates' academic achievements.

The ceremony is rich in academic tradition and protocol, and includes Commencement addresses by university leaders, remarks by other speakers, and the conferral of degrees.

ACADEMIC ATTIRE

All candidates for degrees and those who hold these degrees, including university officials, faculty, and visiting dignitaries, are attired in traditional caps and gowns.

Caps

Most candidates for degrees wear square caps (called mortarboards) adorned with tassels that reflect the schools from which they are graduating. These tassel colors, which are largely standard across the United States, are:

Art and Design—Brown
Business—Drab
Dentistry—Lilac
Education—Light Blue
Health and Human
Sciences—Sage Green
Informatics, Computing, and
Engineering—Copper
Law—Royal Purple
Liberal Arts—White
Medicine—Kelly Green
Nursing—Apricot
Philanthropy—Nile Green
Public and Environmental
Affairs—Peacock Blue
Public Health—Salmon
Science—Golden Yellow
Social Work—Citron
Ph.D.—Royal Blue

Doctoral candidates may wear either a mortarboard or a velvet tam, adorned with a tassel reflecting the school from which they are graduating.

Gowns

The gowns for bachelor's and associate degree recipients have a closed front and open sleeves. The master's gown has extremely long, closed sleeves, from which the arms extend through a slit at the wrist; the end of the sleeve is square, with an arc cut away just above the bottom.

The doctoral gown has velvet panels down the front and voluminous bell-shaped sleeves, on which there are three velvet bars. The velvet is usually black, but may also reflect the color of the discipline.

Hoods

Master's and doctoral degree candidates also wear hoods, which are not actually head coverings but stoles, edged in velvet and lined in satin, that flow down the wearer's back. The color of the velvet edging reflects the academic discipline; the satin lining reflects the institution granting the degree. Thus, Indiana University hoods are lined in cream and crimson.

The edging colors most frequently seen are dark blue for philosophy, green for medicine, purple for law, and lilac for dentistry. The colors of honorary doctoral degrees include royal purple for law, white for letters, and golden yellow for science.

Honor Cords

Indiana University bachelor's degree candidates who have achieved excellence in scholarship are entitled to wear honor cords (fourragères) on the left shoulder.

At Indiana University, the cords are cream and crimson, with combined cream and crimson representing highest distinction, cream representing high distinction, and crimson representing distinction. These awards are made by vote of the various faculties; the cords are provided by the university.

Candidates for associate degrees wear their cords draped around their necks.

These honors are indicated in this program after the students' names.

Honor Cords for Veterans and Service Members

Graduating students who have served or are currently serving in the U.S. Armed Forces wear red, white, and blue cords.

Honor Cords for Honor Societies

Graduates who are members of nearly 60 nationally recognized honor societies may wear their societies' honor cords or medallions during Commencement.

THE HISTORY OF ACADEMIC ATTIRE

Academic costume has a history of nearly eight centuries. In medieval Europe, many townspeople wore long robes and gowns. The materials and colors varied according to the wealth and rank of the individual and were governed by royal decree. Gradually, there developed distinctive gowns for the various professions, trades, and guilds.

Students in the medieval universities of Paris, Bologna, Oxford, and Cambridge organized themselves into guilds. Their usual garb, a long gown, was necessary for warmth in the unheated buildings. Scholars, who were generally members of church orders, wore these robes and also hoods to protect their shaved heads. Later, skullcaps were worn on the head, and the hood became a cape that could be pulled over the head in unpleasant weather. As additional universities were founded, distinctive forms of the gown and hood were adapted by their faculties for bachelors (apprentices of arts), masters (teachers), and doctors (teachers who had completed postgraduate studies). The variations appeared mostly in the hood and were

regulated by strict rules. Tailors who departed from the authorized design could be punished. When caps and hats came into fashion in the fifteenth century, the hoods became ornamental, draped over the shoulders and down the back.

The academic hat was adapted from the headdress of the ordinary people. It was first worn as a symbol of the master's degree and existed in various forms. Some caps were stiff, some soft, some square, some round with a tuft in the center. The tassel of today is an elaboration of the tuft. The mortarboard style comes to us from Oxford.

When academic costume came to America in 1754, styles were quite varied. In Europe, they still are, but in the United States, standardized rules for academic regalia were enacted in 1895 with the passage of the Intercollegiate Code (updated in 1932 and 1959). The code, created by an intercollegiate commission, prescribed the cut and style and materials of the gowns, as well as determined the colors that were to represent the different fields of learning.

GRADUATE STUDENT COMMENCEMENT SPEAKER

SAHITI SOMALRAJU

Sahiti Somalraju is an out-of-state student from Illinois who chose IU Indianapolis for its distinctive undergraduate program in bioinformatics—one of the few in the Midwest offering a dedicated degree in the field.

Enrolled in the accelerated track, she earned her Bachelor of Science degree in biomedical informatics with a minor in interior design technology in May 2024 and is now completing her Master of Science degree in bioinformatics.

A recipient of the 2024 Top 100 Outstanding Undergraduate Student Award, Somalraju has been a dedicated leader throughout her academic journey. As president of the Biomedical Informatics Club, she led initiatives to streamline club operations, foster interdisciplinary learning, and increase member engagement by 500 percent. Under her leadership, the club was recognized as the 2024 Most Improved Student Organization by the Undergraduate Student Government. In addition to leading the executive board, Somalraju

established and mentors a Junior Board to support leadership development and sustainability within the organization.

Since her freshman year, Somalraju has served as a research assistant in the Janga Research Lab, contributing to multiple manuscripts, conference presentations, and grant proposals in RNA bioinformatics. Driven by a passion for mentorship and peer support, Somalraju also mentors incoming research assistants in the lab, training them in bioinformatics tools, workflows, and best practices

to support smooth onboarding and project execution.

In the classroom, Somalraju has supported both undergraduate and graduate-level bioinformatics courses as a teaching assistant.

Somalraju is committed to giving back through community service as well. As a member of Circle K International and former member of the Alpha Lambda Delta Phi Eta Sigma (ALDPES) Honor Society, she has contributed to a variety of service initiatives—from preparing holiday gifts for children in need to participating in sustainability projects and events supporting local communities.

Following graduation, Somalraju will begin her doctorate studies in bioinformatics at Luddy Indianapolis. Her long-term goal is to work in the biotechnology industry, where she hopes to lead impactful research initiatives, collaborate with interdisciplinary teams, and help bridge the gap between computational biology and health care.

UNDERGRADUATE STUDENT COMMENCEMENT SPEAKER

LONDON OKOWA

London Okowa graduates today with a Bachelor of Science degree from the IU Kelley School of Business, where she double-majored in human resource management and business management with a minor in communication studies.

Okowa has been named to the Dean's List six times and was recently recognized as a scholarship recipient at the IU Indianapolis Curtis Memorial Oratorical Contest.

On campus, Okowa serves as the president of Collegiate 100 and the vice president of the National Association for the Advancement of Colored People (NAACP). She has been an Orientation Team/Diversity Enrichment Achievement Program peer mentor since July 2022.

Okowa also participated in a study abroad program in Ghana and will be traveling to Poland in May as part of her communication studies.

Within the community, Okowa is a lead volunteer for 100 Black Men team mentoring and financial literacy. She is a Civic Action Learning and Leadership Fellow and a college ambassador for the National Federation of State High School Associations' (NFHS) National Student Leadership Summit (NSLS).

Passionate about leadership, mentorship, and helping others grow, Okowa is dedicated to creating spaces where people feel valued and supported.

Following graduation, Okowa will join Republic Airways as a human resource shared services specialist, and she hopes to make a meaningful impact by fostering a positive workplace environment.

GRADUATE AND UNDERGRADUATE DEGREE RECIPIENTS

This Commencement program should be regarded as a preliminary document, pending confirmation of all degrees. It includes graduates whose degrees were conferred and honors awarded from September through December 2024, and candidates for degrees and honors from January through August 2025. Degrees and honors will be conferred after the completion of all requirements is verified.

Students who receive their degrees through the Indiana University Indianapolis Honors College are indicated with an asterisk (*) to the right of their names. The criteria for this distinction are 24 credit hours in Honors work with at least a 3.3 grade point average and a minimum overall grade point average of 3.3.
